

Sunrise Supreme

HANDLING INSTRUCTIONS

1. Keep all product frozen (-10°F - 0°F) for the entire shipping and storage process.
2. Two (2) to three (3) days before usage, move product from freezer to refrigerator to thaw. **Product must thaw under refrigeration.**
3. Open the container and mix until uniform.
4. Pour into a soft serve or batch ice cream machine.
5. Place all unused product back into refrigerator. Do not refreeze thawed product.

SHELF LIFE

- Frozen - 18 Months
- Refrigerated (unopened) - 14 Days
- Refrigerated (opened) - 5 Days

TROUBLESHOOTING

Our ready-to-use Sunrise Supreme mix is virtually infallible, granted that all handling instructions have been properly followed. If you are experiencing an issue with this product, please ensure that the product has been properly thawed and stored, and that it is not beyond its shelf life. Also, please ensure that you have followed the operational instructions of the manufacturer of your specific soft serve/batch ice cream machine. If you believe that your issue is due to something else, please contact us directly at the number below.
